Dear Mr. Richardson:

RE: Nulex, Inc.

RCRA I.D. No. IAR000007310

On September 22, 1998, a representative of the U. S. Environmental Protection Agency (EPA) performed a compliance evaluation inspection (CEI) at your facility. The inspection was conducted under the authority of Section 3007 of the Resource Conservation and Recovery Act (RCRA). A copy of that inspection report was included in the January 20, 2000 Letter of Warning.

EPA has received your response to the September 22, 1998 Notice of Violation, May 13, 1999 Request for Information, and January 20, 2000 Letter of Warning. I have reviewed these documents and determined that they adequately address the violations and regulatory concerns found during the September 22, 1998 CEI. Therefore, no further submittals are required at this time. Please note that EPA reserves its right to pursue appropriate enforcement actions, including penalties, for violations discovered as a result of this inspection.

I would like to remind you that your facility is responsible for maintaining compliance with all applicable hazardous waste regulations. If there are any questions regarding this matter, please contact me at (913) 551-7136.

Sincerely,

Kendra Kennell
